

## What's New at CARFS

# Industry Advisory Board Meeting

January 15 & 16, 2025

Largo, FL

CARFS government members analyze explosives using ARGOs, a standoff chemical threat detection technology, during a tour of Alakai Defense Systems led by Industry Advisory Board Chairman, Henry Maynard.

We kicked off 2025 with solution-oriented research projects at the bi-annual IAB meeting.

- 57 Participants from Government, Defense, Industry, and Academia
- 14 New Project Proposals including AI, Field Testing, Long-Range Sensors, DNA, and Drone Detection
- 11 Project Updates in Chemistry, Toxicology, Entomology, Cryptocurrency, and 3D Printing

Find us at AAFS and connect with the innovators shaping the future of forensic science!

### AAFS Reception

Tuesday

February 18

5-6 p.m.

Baltimore Hilton, Carroll A,B
